OPTION <F13=VALID OPTIONS> F3=SUMMARY; F7=BACK; F9=FORM

M/C Eligibility Status. If this shows 999, there is no eligibility

OHC – anything other than N requires further checks.

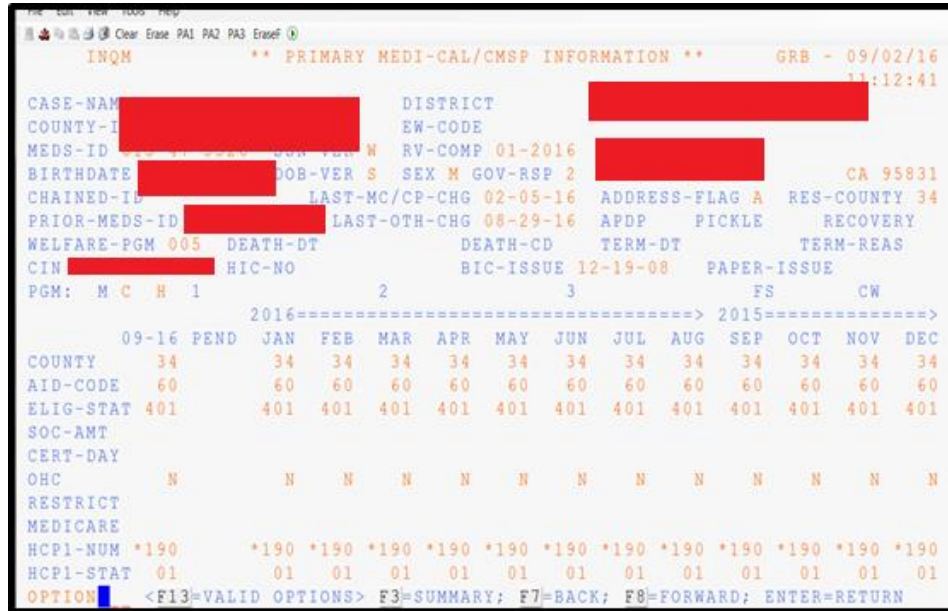

2. Resident County and Legal County are 34
 - a. If different – the resident county is the financially responsible county
 - i. Example: an adopted child is the financial responsibility of the county from which the child was adopted, regardless of where the child actually lives (Legal County).
3. Eligibility Code 60 shows SSI
4. Eligibility Status 401 – full Scope, reported timely
5. No OHC – anything else in this field will require further research
6. If there is no information or no M/C on QM screen, check Q1 and Q2.

Always check all Q screens – QM, Q1, Q2, and Q3

7. SOC-AMT is the Share of Cost amount
8. CERT-DAY is the day in which the SOC was paid
9. Medicare – if the client has Medicare the code will be 322
10. HCP1-NUM – Managed care program
11. HCP1-STAT – Enrollment Status
 - a. 01=Active
 - b. 51=In transition – possibly transferring between counties
 - c. 51 updated to S1=capitation has been paid – if inter-county transfer, the new county is now financially responsible.

Find the CCS Aid Code | HE Screen

1. Type HE in the Option Field and Enter

```

CRISS | MEDS Tool Kit

This screen gives the CCS Aid Code, County of Residence and the dates covered by this Aid Code.

Note: When an aid code is changed, it must not be erased. It must be End Dated and a new line added. In this instance, the 9N began in 2012 and ends in 2016. This record will remain for 3 years only. On 6/30/2019, the record will be erased.

The critical importance to keeping this screen accurate is for retroactive corrections. For instance, if a claim in your county paid out of 9U funding on 6/30/16, and this record is not kept accurate, the claim will not be corrected to 9N funding, resulting in financial loss to the program.

An incorrect change on this screen could result in the case being coded as 9U from 5/16/2012 to current.

M/C will only correct erroneous records up to 3 years via EPC or MR-0-940 correction.

Aide Codes:

9K	CCS Only or Medi-Cal with SOC
9R	Formerly Healthy Families. Now TLICP/OTLICP over \$40,000
9N	Medi-Cal Benefits Only
9U	Formerly Healthy Families. Now TLICP/OTLICP Under \$40,000.
9M	MTP Only

BIC Issue Date

Note: A biller not having a current BIC Issue Date is a common reason for denial when billing electronically. It is a very common pharmacy denial type. To get the most current issue date:

1. From the Primary Information Screen, select and copy the MEDS ID (SSN)

2. Shift F9 – this will take you to the Cross Reference File

3. Type 'B' at the cursor and paste the SSN on the MEDS ID line

CRISS | MEDS Tool Kit

- 4. Delete the Hyphens in the SSN: Enter
(Or type the SSN into the field)

The line item without a 'Good Thru Date' is the most current.

Pharmacies will need the last 5 digits behind the alpha in the BIC-ID and the current Issue Date.

Insurance Screens

Insurance information can be accessed from either the HI screen or from the MOPI screen.

1. HI: from a Q screen, type HI into the Option Field; Enter

```

This is the information providers see when checking MEDS on a CCS client. 'CCS Eligible' and 'CCS Prior Auth Required for CCS SVCS' (CCS Services) should always be included for any active case. If it is not, contact the Help Desk to have it updated.

Changing Settings in MEDS

Access changes to your personal MEDS screens from the Tools tab

1. Go to Tools

2. From Options you can adjust Font, Colors, Printers, etc.

3. Keyboard Layout will allow you to assign functions such as 'Clear'. The default is Scroll (ScrLk key)
